

A QUICK GUIDE TO UNDERSTANDING YOUR CREDIT CARD STATEMENT

FRONT

- 1

Opening Balance
The amount you owed at the start of your statement period. It is the same as your closing balance on your last statement.
- 2

Payments
What you've paid off already (credits) during the statement period.
- 3

Purchases, Cash Advances, Credits, Charges & Interest
What you've spent during the statement period.
- 4

Closing Balance
The total amount owing on your credit card at the end of the statement period.
This is your opening balance plus your debits (what you've spent), minus your credits (what you've paid off your card) during the statement period. **Pay your closing balance in full by the due date to avoid paying interest on purchases.**
- 5

Statement Period
The range of dates the statement covers e.g. 20 July to 19 August. Purchases you've made during this period show up on the statement.
- 6

Credit Limit
The highest amount you can spend on your credit card.
- 7

Available Credit Limit
The amount of credit you have available. It's worked out by subtracting your closing balance from your credit limit.
- 8

Current Payment Due Date
The date your current payment is due.

Pay your account by online banking or at a Westpac branch. For ways to pay your credit card, see the section overleaf or for more details visit westpac.co.nz.
Minimum Payment: If you make only the minimum payment each month, you will pay more interest and it will take you longer to pay off your balance. Visit www.sorted.org.nz/creditcards to calculate how you can pay off your credit card balance faster and pay less in interest.
Further information on transactions can be found in Westpac One® digital banking.

- 10

Rewards Balance
A record of the rewards you have earned through card spending. This is for rewards tracking only and is not related to your card balance or payments.
- 11

Overdue Payment (pay now)
The amount you owe from your last statement that **you need to pay immediately as this is overdue and incurring interest.**
- 12

Current Payment
This is the minimum amount you owe from this statement period.
- 13

Total Minimum Payment Due
This is the minimum amount you have to pay towards your credit card bill for the month. This is worked out by adding any 'overdue payment' to your 'current payment'. **Paying more than the minimum each month can help you clear your balance faster and reduce the interest you pay. If you only make the minimum payment, it will take longer to pay off your balance and cost you more in interest.**
